SKILLS

Languages: JavaScript, Python, PHP, SQL, HTML5, CSS3
Frontend: React.js, Bootstrap, Tailwind CSS
Backend: Laravel, Node.js, Express.js, REST APIs
Databases: MySQL, PostgreSQL, MongoDB
AI: Gemini API, Generative AI, Prompt Engineering
Tools: Git, GitHub, Bitbucket, Docker, Postman, CI/CD, Composer
Development: MVC Architecture, Agile, Unit Testing, Authentication, API Integration

ABOUT

Software Engineer experienced in developing web applications and RESTful APIs using Laravel, PHP, JavaScript, React.js, Node.js, and MySQL. Skilled in client-side and server-side development, database-driven applications, API integration, authentication, and Agile development.

EXPERIENCE

Wholewave Elements Pvt Ltd Chennai, India
Software Developer (Backend) 06/2025 - Present

- Develop and maintain RESTful web services using Laravel and PHP, integrating MySQL and optimizing queries to improve application performance and reduce page load times by 30%.
- Design and implement server-side application logic, API integrations, authentication, and data validation for production web applications following MVC architecture.
- Collaborate with frontend and cross-functional teams using Git, Bitbucket, and Agile practices to develop, test, troubleshoot, and deliver reliable web solutions.

CERTIFICATIONS

Enhancing Soft Skills and Personality NPTEL (Apr, 2023)
Entrepreneurship and IP Strategy NPTEL (Sep, 2023)

EDUCATION

R.V. College Of Engineering. Bengaluru, Karnataka, India
Masters of Computer Applications CGPA: 7.91/10 11/2022 - 12/2024
Vidyalankar School of Information Technology. Mumbai, Maharashtra, India
Bachelor of Science (Information Technology) CGPA: 8.72/10 06/2019 - 04/2022

PROJECTS

WEGOFIN

- Developed and maintained payment integrations for transactions, refunds, and settlements using Laravel, REST APIs, and MySQL.
- Integrated RESTful APIs and backend services to support multiple payment methods, transaction processing, and real-time tracking.
- Optimized backend operations and collaborated with cross-functional teams to deliver secure, scalable, and reliable financial solutions.

AI-Powered Marketing Content & Campaign Assistant

- Developed an AI-powered web application using React.js, Node.js, Express.js, MySQL, and Gemini API to generate digital marketing content and advertising campaigns.
- Implemented AI-driven generation of ad copy, social media captions, CTAs, keywords, and campaign variations based on product and target-audience inputs.
- Built RESTful APIs and database-driven campaign management features to create, edit, store, and manage AI-generated content.

MERN Stack Real Estate Platform

- Developed a full-stack web application using MongoDB, Express.js, React.js, and Node.js with authentication, property listings, image uploads, and profile management.
- Implemented Google OAuth, RESTful APIs, Redux Toolkit, and responsive UI components using Tailwind CSS.
- Built database-driven search and filtering functionality with secure backend services and scalable application architecture.
